The main intention of this policy is to ensure the health, safety and welfare of staff and students who use the services and facilities at Our Lady of the Way School. We do this by assessing the risks in the road environment around our school, developing practical school management procedures and ensuring that curriculum that pertains to all road safety issues is taught to our students.

1.0 Rationale

We believe that Our Lady of the Way School is founded on the person of Jesus Christ and is committed to the gospel values - especially in hope, love, justice and care for others in the community. This Road Safety Policy provides a framework of common understanding for students, staff, parents/carers and the community who interact with the school to provide a safe environment. The main intention of this policy is to ensure the health, safety and welfare of our students who use the services and facilities of this school.

Environmental Statement

Our Lady of the Way School has a student population of 380 and is situated on the corner of Forbes and Troy Streets, at Emu Plains. The school significantly impacts on the traffic flow and pedestrian density. Students use a variety of modes to travel to and from the school by bus, walking or private transport.

2.0 Aims

At Our Lady of the Way School we aim to:

- Provide a quality road safety education program (K-6) that develops attitudes, behaviours and values promoting responsible road use.
- Implement procedures and practices that maximise the safety of students when they arrive at school and when they leave school.
- Encourage the education of road safety issues in the wider school community, e.g. Parents/carers, staff and visitors.

Curriculum Statement

At Our Lady of the Way School staff will develop and implement effective, sequential road safety education programs within the K-6 PDHPE Key Learning Area. The programs will make use of the Broken Bay PDH units; NSW Roads and Traffic Authority (RTA) Move Ahead with Street Sense materials and address the following road safety issues for the students:

- passenger safety;
- bus safety
- pedestrian safety; and
- safety on wheels (bicycles, scooters, roller-blades and skateboards).
School Management
Provision of Road Safety information to staff, parents and carers will be provided through teacher learning meetings, staff memo and briefings, parent newsletters, activity packs supplied on orientation days.

Regular information will be provided about:
- modelling safe road user behaviour;
- parking vehicles safely outside the school and observing all parking signs;
- ensuring that children are protected whilst travelling to and from school;
- reinforcing the safety messages taught at school;
- supervising the travel of young students;
- identifying and reporting safety issues in and around the school;
- contributing to solving road safety issues that are of concern to the school and community.

The following set of guidelines addresses each aspect of road safety pertaining to Our Lady of the Way School outlining the expected codes of behaviour and school management practices.

Transporting students by teachers:
- approval from the Principal must be sought to transport any students to school functions or sports events;
- parental permission to transport students in a teacher’s vehicle must be obtained;
- sighting and keeping records of vehicle registration, driver’s licence details and comprehensive insurance policies.

_It should be noted that, for child protection reasons, it is unacceptable for a single student to be driven by a single teacher or parent. Another student or adult should be present._

Transporting students by parents:
- approval from the Principal must be sought to transport any students to school functions or sports events;
- completion of the CEDP Child Protection module by parents who are transporting students is mandatory;
- parental permission to transport students in another parent’s vehicle must be obtained;
- sighting and keeping records of vehicle registration driver’s licence details and comprehensive insurance policies.

_It should be noted that, for child protection reasons, it is unacceptable for a single student to be driven by a single teacher or parent. Another student or adult should be present._

Setting a Good Example
Safety of students as they travel to and from school each day is important. It is expected that parents/carers, grandparents and family members will support the school through role modelling safe road use behaviours.

These include:
- Using designated footpaths or walking in areas away from the road
- Holding the children’s hand (for those up to 8 years of age) and actively supervising all children as they walk to and from school
- Teaching children to **Stop, Look, Listen and Think** every time they cross the road
• Walking with children to cross roads (do not call children across the road)
• Crossing roads away from parked cars
• Parking correctly in designated areas
• Getting children in and out of the car on the footpath side
• Using seatbelt restraints for all passengers prior to driving away
• Waiting safely at bus stops and waiting until the bus has gone and choosing a safe place to cross

Arriving and Departing

Parent/carers and family members are encouraged to walk with their child to school to reduce traffic congestion around the school, to promote physical activity and to teach children about correct road use behaviours.

Parents/carers, family members and students are expected to use the available pedestrian facilities around the school to cross the road. Where no pedestrian crossing facilities are available parents/carers, family members and students should Stop, Look, Listen, Think before crossing the road and cross in an area away from parked cars and especially buses. Walk quickly and directly across the road.

Arrival and Departure by car:

For those parents/carers, and family members that need to drive their children to school, there are areas along Forbes and Troy Streets and surrounding streets where parking is available.
Park correctly and walk with your child to the school gate.
Restricted parking signs are in place around the school site to increase children’s safety. Drivers must abide by these parking regulations.

The school is located in a 40km school zone where a 40 km speed limit applies for the hours of 8.00-9.30am and 2.30-4.00pm on school days. The speed limit is lowered to 40km during these hours to increase the safety of the students arriving and departing the school. Drivers must abide by these speed regulations.

Teachers supervise students catching buses after school. Any students remaining wait in the office foyer until collected.

Wet weather days are particularly hazardous for children as traffic increases, visibility of children is decreased and slippery roads make driving conditions more difficult. Reduce speed, park correctly and walk with your child from the school gate to your vehicle. Children under 10 should be supervised in the traffic environment and those 8 years and younger should always hold an adults hand.

A set of clear school rules and expected behaviour are to be explained to students relating to travelling on and alighting from buses.

A set of clear school rules and expected behaviour are to be explained to students relating to crossing of roads at pedestrian lights and crossings.

The school uses the current RTA Move Ahead with Street Sense resources to develop K-6 PDHPE programs that address the NSW Primary Curriculum Foundation Statements for each stage in PDHPE.
The Road Safety Checklist will be utilised as part the school’s *Risk Assessment* procedures. (Refer to appendix)

**Budget**
A budget is provided for the professional development of staff and acquisition of resources.

**Evaluation**
The Principal, with delegated responsibility to the Leadership Team will be responsible for the planning, implementation and review of this program.
Permission Note to Transport Students During School Hours to Approved School Activities by a Parent

I __________________________ am able to assist with the transportation of students
(Parent’s Name)

to /from (cross out if not applicable) the approved school activity named below. This involves travel between
_________________________ and __________________________
(origin of journey) (destination of journey)

I am a licensed driver. My vehicle is safe, in a good state of repair, has full comprehensive insurance and is equipped with seatbelts to safely transport passengers. For this event I am able to safely transport ___________ student passengers.

These transport arrangements have the knowledge and approval of the school Principal.

Please complete the following:

<table>
<thead>
<tr>
<th>Name of school activity</th>
<th>Day or time of school activity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Driver’s name</td>
<td></td>
</tr>
<tr>
<td>Licence Number</td>
<td></td>
</tr>
<tr>
<td>Vehicle make/model</td>
<td></td>
</tr>
<tr>
<td>Registration</td>
<td></td>
</tr>
<tr>
<td>Insurance details</td>
<td></td>
</tr>
<tr>
<td>Parent/Carers phone number/s</td>
<td></td>
</tr>
</tbody>
</table>

I have completed the CEDP Child Protection Module - Yes □ Date:

Signature of Parent/Carer driving: ___________________________ Date: __________________

Student’s Name: ___________________________ Class: ___________

Signature of Principal: ___________________________

-----------------------------------------------------------------------------------------------------------------------------

I __________________________ give permission for my child ______________________ of class ______
to travel by private vehicle with __________________________ (driver’s name)
to/from (cross out if not applicable) the approved school activity named above. These transport arrangements have the knowledge and approval of the school Principal.

I am giving this permission with the understanding that the vehicle my child is to be transported in is safe, in a good state of repair, has full comprehensive insurance and is equipped with enough seatbelts to safely transport all passengers.

Parent/Carers Signature: ___________________________ Date: __________________
# ROAD SAFETY CHECKLIST

**Our Lady of the Way School**

A checklist is a preliminary look at the school environment. It is the start of the risk assessment process. Use “Yes/No” to indicate if there is a problem of any sort. Use “Comments” to add notes for the risk assessment that will follow.

**Note:** A checklist is not an alternative to making a risk assessment, or to obtaining data about risks from elsewhere.
